### CAREER OBJECTIVE :

A Full Stack developer who enjoys building websites and web apps that are both useful and easy to use. I work on both the front end and the back end. I pay attention to details, communicate well with others, and like solving problems in smart and creative ways. I care about making things look good and work smoothly for users, and I'm always open to learning new skills and tools. I enjoy being part of a team and contributing to projects that make a real impact.

### SKILLS :

Expert : Tailwind, Javascript, Typescript, React js, Next js , Shadcn.

Familiar With : Git, Redux , Storybook, Framer Motion, Gsap.

Soft Skills : Leadership, Communication, Time Management, Task Prioritization, Adaptability.

### EXPERIENCE :
